

I claim:

1. A bag for carrying baby care items comprising a first panel, a second panel connected to said first panel, at least one compartment located on the inside of at least one of said panels, an over the shoulder-size handle secured to a first of said panels and a pair of opposed panel edge closure means such that said handbag when worn over a shoulder may be opened with only one hand by pulling down on said handle thereby exerting downward force against the support of said shoulder to unfasten said opposed panel edge closure means.

2. A bag as claimed in Claim 1 wherein said opposed panel edge closure means comprise hook and loop fasteners.

3. A bag, as claimed in Claim 1, further comprising a second over the shoulder-sized handle attached to said second panel.

4. A bag, as claimed in Claim 1, further comprising a plurality of different-sized compartments located on the inside of both of said panels.

5. A bag, as claimed in Claim 4, wherein one of said compartments is sized for securing at least one diaper.

6. A bag, as claimed in Claim 4, wherein one of said compartments is sized for securing a baby bottle.

7. A bag, as claimed in Claim 4, wherein one of said compartments is sized for securing wipes.

8. A bag, as claimed in Claim 1, further comprising a separate pocketbook section secured to the outside of one of said panels.
